

8 February 1983

MEMORANDUM FOR: Office of Global Issues

FROM

:

DDI/Congressional Support Staff
2F42 Hqs

STAT

STAT

SUBJECT :

World Petroleum Outlook

BRIEFING DATE : Friday, February 18, 1983CONGRESSMAN/COMMITTEE: Senate Committee on Energy and
Natural Resources

REQUEST : When Committee staff member Howard Useem was at headquarters on 4 Feb for a briefing by [redacted] on the global impact of the oil price decline, Useem also discussed a Committee hearing planned for February 18th on the petroleum outlook (see attached letter). Useem reportedly outlined the format of the hearing, allocating specific topics to CIA, State, Treasury and the Dept. of Energy. We are told Clealand (Treasury) and Bradley and O'Brien (DOE) are signed on to represent their departments. State's representative is yet unknown. If you do not have adequate information to proceed with preparations for the hearing, we will have to contact Useem again since he did not provide any written instructions other than the attached letter. Would OGI be able to handle this broad topic alone, or does it involve other DDI offices?
